AirMiller "Sit Cool"™

Timeless Values. Innovative Design.

Welcome to Miller at Work, a new breed of office furnishings supplier with strong industry bloodlines. Building on decades of success as Miller Desk – a recognized leader in quality, value and service – we offer you the perfect synthesis of innovative design, cutting-edge technology and old-fashioned values. At Miller, we believe in family. That is why our entire seating collection is named after members of our family. Located in the heart of the furniture capital of the world – High Point, NC you get unmatched quality while knowing we are supporting our community and country. The Felix chair is name after the Miller brother’s father Felix Miller Jr. who believed in engineering products that would perform under the test of time and patented and manufactured the first 500 lbs 24/7 ergonomic chair in 1991. The Miller family has been in the furniture business for over 70 years. Beginning in the 40’s and 50’s with Felix Miller Sr. our grandfather sold and serviced wood working machinery. In 1971 Miller Desk Company was created to service the office furniture industry with the highest of quality, by manufacturing desk and office furniture. In 2008 Miller at Work was established and is a continuation of superior products and work ethics from Miller Desk.

Miller at Work has the capacity to produce specific features in seating, which has made our 24/7; Big and Tall heavy-duty seating explode throughout the industry. We heard what you had to say, and we made it happen. Our seating offers a vast array of sizes and weight limits that can accommodate anyone. We have worked hard to earn the trust in the intensive use industry, now that we have done that we are taking that same approach to offer the same high quality craftsmanship from our 24/7 seating to a new non 24/7 seating line.

We have a motto here at Miller at Work and it is “A Tradition Of Listening”, to us it is more than just a motto it is a way of life. That is why our products are so unique because we LISTEN.

Sincerely,

Max Miller  
**Max Miller**

# Customer Loyalty Letters

Charleston County Consolidated 911 Center has been buying 24/7 chairs for our dispatch center and training rooms for a little over 4 years. We have purchased 3 different types of chairs and even outfitted our training room as well. We've never had any complaints with the chairs we have been using every day since 2018 and the service we get from Mr. Miller and his team has always been A+. The 24/7 chairs that are made by Miller at Work are always durable, easy to operate, comfortable and if there's ever an issue or a malfunction, Miller at Work is always quick to send a technician to visit our location to immediately remedy the situation. We like that Miller at Work offers heavy duty chairs for our staff when a regular standard chair won't do. We had our chairs embroidered with our 911 center logo, free of charge, and the presentation on the back of our chairs is beyond compare. We do many photo and video productions in our 911 Center and the Miller at Work chairs with our logo on the back are always a CenterPoint in the promotion of our agency. Aside from good service and a sturdy durable product, the company founder, Mr. Max Miller is a man who stands out in the 911 community. He's quick to offer his help delivering chairs as samples and replacements, he takes phone calls personally from his customers and participates in local and state wide programs to help educate and outfit 911 centers across South Carolina. We will be doing business with Miller at Work for many years to come and frequently refer his company to others in our industry.

James R. Lake, Director of Operations

Amy F. Heid  
Accountant I / Well-Being Coordinator  
Charleston County Public Safety  
Consolidated 9-1-1 Center Department

Dear Jim,

Thank you so much for such a gracious support to my company and family. In my last forty years of manufacturing, I have never received such accolades. You and Amy make us feel like we are a part of your organization's family.

Sincerely,  
Max Miller

## Montgomery County Department of Public Safety

We have been very happy with the quality and comfort of our chairs. The available selection was instrumental helping us accommodate the wide variety of sizes and body types in our center. Communications with the team at Max Miller is great and makes working with them a breeze.

Marc Leong (Shift Supervisor) **Montgomery County 911**  
Eagleville PA

## Nashville TN Department of Emergency Communications

The Nashville Emergency Communications Center has been using Miller at Work chairs for several years now. The company is a family owned ran business and the customer service has been excellent. We have worked closely with Max and his family to provide what we feel like is one of the best quality and comfortable chairs for our 9-1-1 dispatchers. The chairs have been extremely reliable, and Max is quick to respond with any questions or concerns, sending a technician onsite to promptly address any issues. Max has been onsite multiple times since we purchased the products to meet with management and our users to answer any questions. Overall, this has been an outstanding partnership with the Miller at Work company.

Tim Watkins
