AirMiller "Sit Cool"™

Timeless Values. Innovative Design.

Welcome to Miller at Work, a new breed of office furnishings supplier with strong industry bloodlines. Building on decades of success as Miller Desk – a recognized leader in quality, value and service – we offer you the perfect synthesis of innovative design, cutting-edge technology and old-fashioned values. At Miller, we believe in family. That is why our entire seating collection is named after members of our family. Located in the heart of the furniture capital of the world – High Point, NC you get unmatched quality while knowing we are supporting our community and country. The Felix chair is name after the Miller brother’s father Felix Miller Jr. who believed in engineering products that would perform under the test of time and patented and manufactured the first 500 lbs 24/7 ergonomic chair in 1991. The Miller family has been in the furniture business for over 70 years. Beginning in the 40’s and 50’s with Felix Miller Sr. our grandfather sold and serviced wood working machinery. In 1971 Miller Desk Company was created to service the office furniture industry with the highest of quality, by manufacturing desk and office furniture. In 2008 Miller at Work was established and is a continuation of superior products and work ethics from Miller Desk.

Miller at Work has the capacity to produce specific features in seating, which has made our 24/7; Big and Tall heavy-duty seating explode throughout the industry. We heard what you had to say, and we made it happen. Our seating offers a vast array of sizes and weight limits that can accommodate anyone. We have worked hard to earn the trust in the intensive use industry, now that we have done that we are taking that same approach to offer the same high quality craftsmanship from our 24/7 seating to a new non 24/7 seating line.

We have a motto here at Miller at Work and it is “A Tradition Of Listening”, to us it is more than just a motto it is a way of life. That is why our products are so unique because we LISTEN.

Sincerely,

Max Miller

Max Miller

Customer Loyalty Letters

Charleston County Consolidated 911 Center has been buying 24/7 chairs for our dispatch center and training rooms for a little over 4 years. We have purchased 3 different types of chairs and even outfitted our training room as well. We've never had any complaints with the chairs we have been using every day since 2018 and the service we get from Mr. Miller and his team has always been A+. The 24/7 chairs that are made by Miller at Work are always durable, easy to operate, comfortable and if there's ever an issue or a malfunction, Miller at Work is always quick to send a technician to visit our location to immediately remedy the situation. We like that Miller at Work offers heavy duty chairs for our staff when a regular standard chair won't do. We had our chairs embroidered with our 911 center logo, free of charge, and the presentation on the back of our chairs is beyond compare. We do many photo and video productions in our 911 Center and the Miller at Work chairs with our logo on the back are always a CenterPoint in the promotion of our agency. Aside from good service and a sturdy durable product, the company founder, Mr. Max Miller is a man who stands out in the 911 community. He's quick to offer his help delivering chairs as samples and replacements, he takes phone calls personally from his customers and participates in local and state wide programs to help educate and outfit 911 centers across South Carolina. We will be doing business with Miller at Work for many years to come and frequently refer his company to others in our industry.

James R. Lake, Director of Operations

Amy F. Heid
Accountant I / Well-Being Coordinator
Charleston County Public Safety
Consolidated 9-1-1 Center Department

Dear Jim,

Thank you so much for such a gracious support to my company and family. In my last forty years of manufacturing, I have never received such accolades. You and Amy make us feel like we are a part of your organization's family.

Sincerely,
Max Miller

Montgomery County Department of Public Safety

We have been very happy with the quality and comfort of our chairs. The available selection was instrumental helping us accommodate the wide variety of sizes and body types in our center. Communications with the team at Max Miller is great and makes working with them a breeze.

Marc Leong (Shift Supervisor) **Montgomery County 911**
Eagleville PA

Nashville TN Department of Emergency Communications

The Nashville Emergency Communications Center has been using Miller at Work chairs for several years now. The company is a family owned ran business and the customer service has been excellent. We have worked closely with Max and his family to provide what we feel like is one of the best quality and comfortable chairs for our 9-1-1 dispatchers. The chairs have been extremely reliable, and Max is quick to respond with any questions or concerns, sending a technician onsite to promptly address any issues. Max has been onsite multiple times since we purchased the products to meet with management and our users to answer any questions. Overall, this has been an outstanding partnership with the Miller at Work company.

5 years	13	Platinum	5 years	10 years	\$3,600.00
5 years	15 & 17	Diamond	2.5 years	7.5 years	\$1,200.00
5 years	15 & 17	Platinum	5 years	10 years	\$2,400.00

All labor participation from third parties must be pre-approved by Miller at Work in writing with a PO and only applies to the lower 48 states except: NY City and the surrounding 5 burrows who will not be able to participate in the labor portion of warranty due to the extreme cost.

What's in a model number?

Here at Miller at Work we have a specific way of doing our model numbers so that it makes it easier for customers to understand. The first 3 to 4 digits of the model number is the actual model number for the chair, the next two digits are to specify the **arms**, the next digit specifies the **base**, the next two digits specify the **mechanism**, the next two digits specify the **width** and the last two digits are the depth of the seat.

Bases

#3 Heavy Duty 6 prong steel base

#7 Low profile nylon base

#10 Heavy Duty cast aluminum base

Arms

#15 Fixed reinforced steel heavy duty arm (Height & Width adjustable)

#16 Height and Width adjustable sliding arm (Gel Arm Pad slides front to back)

#17 Fold down arm w/front sliding arm pad, height and width adjustable

Mechanisms

* **Synchro Tilt: #31SS**

- 1) Left side mounted knee tilt
- 2) Left side mounted infinite angle lock
- 3) Right side mounted tension control
- 4) Right side mounted gas lift
- 5) **Adjustable seat depth**

* **HD Swivel Only: #34**

* **HD Synchro Tilt: #32**

- 1) 2 to 1 knee tilt
- 2) Back is independent from seat
- 3) Back locks in upright position or free float
- 4) Tension Control

* **Mid-Pivot: #37**

- 1) With tilt lock
- 2) Synchro tilt w/ tilt lock
- 3) Maxine stool w/ mesh seat

All warranties will be tracked by the customer purchase order number and/or Miller at Work invoice number.

Our warranties are applicable to the 48 contiguous states and the District of Columbia

Miller at Work's warranties include labor for repairs and all labor repairs will be authorized by Miller at Work.

Miller at Work warranties typically cover normal wear and tear, with the exception being cases where the appropriate weight capacity is not adhered to by the purchaser.

No other manufacturer besides Miller at Work provides a warranty covering normal wear and tear. Our commitment to a 24/7 work environment leaves no room for normal wear and tear, giving our competitors the leverage to disqualify any warranty claims.

In no event shall the total liability manufacturer resulting product failure, as damages or otherwise, exceed the purchase price of the product. Neither Miller at Work nor their authorized dealers under any circumstances shall assume responsibility for loss of time, inconvenience, commercial loss, expenses for travel, lodging, or damage to personal property, loss of revenue, or incidental or consequential damages.

Miller at Work reserves the right to make changes or improvements in the design of Miller at Work products without obligation to make corresponding changes or improvements in previously manufactured Miller at Work products.

This is the exclusive and complete warranty made by Miller at Work with respect to Miller at Work Intensive Use seating products. No person whatsoever is authorized to make any representation, warranty, or promise on behalf of the manufacturer. Miller at Work makes no other expressed warranties and disclaims any and all implied warranties. The remedies set forth above pertaining to repair or replacement of parts or materials are exclusive of all other remedies. Dealer makes no warranty on his or her own.

All warranty claims must be submitted using the online claim form or email at claims@mawhp.com.

Test Results:

Cyclic Back and Back Tilt Mechanism Fatigue Test:

Testing was performed per GSA FED-STD-834A, section 5.1.

<u>Specimen</u>	<u>Cycles</u>	<u>Observations</u>
2261355	0 500,000	Test begun. No disabling damage.

Please review the marketing questionnaire to help our potential customers decide what they need, especially since we offer more options than our competitors.

Chair Purchasing Guideline Considerations:

1. Weight capacity
2. High Back, Executive Back, Low Back
3. Seat width
4. Seat depth
5. Seat Height range
6. Mechanism functions
7. Arm functions
8. Upholstered, mesh or combo
9. Fabric, Vinyl or Leather
10. Warranty coverage for each chair part
11. Warranty repair responsibility
12. Procedures to request assistance in repairs
13. Contract requirements?
14. Special needs requirements

Please feel free for any additional categories and adjustments to the above thoughts
